

Here's what our students are saying...

"Gun class was... the most liberating and empowering feeling in the world. Absolute top notch. GREAT class. Great guys."

"The best part of the class was the encouragement and assistance to overcome my fears. Excellently done."

"It was a great couples weekend."

"15 years of shooting and I thought I knew a lot. Boy, was I wrong! Thanks."

The staff are all WONDERFUL. They take individuals at all levels and increase their skill levels. They do this in a friendly, non-judgmental and professional manner while making stressful situations not only bearable but successful for each student. I would highly recommend this course to anyone. You gave a newbie uncomfortable with firearms confidence and skill in a very pleasant two-day period.

Excellent instructors; absolutely worth the money and time.

I have been shooting for 35 years and learned A LOT. Enjoyed all the instructors, they were very helpful with loads of advice and encouragement.

For me, as a beginner, I think the course is amazingly instructive and helpful. I just wanted to say that all of the instructors are incredible and I would like to say a big THANK YOU! to all of them. Their sense of humor made everything so enjoyable.

This course FAR surpassed my expectations.

Great course. Had a great time. Good people & good food with guns! Can't beat that.

GSL Defense Training's Basic IL CCW

This Illinois-approved course satisfies the 16-hour training requirement to apply for an IL carry license. It is also the GSL Defense Training NRA Personal Protection in the Home course which is recognized nationally by numerous states to satisfy those states' training requirements to carry as well.

Course goal: To develop the basic knowledge, skills and attitude essential to the safe and efficient use of a handgun for protection of self and family, and to provide information on the right to self-defense. This class covers a review of the NRA gun safety rules, how to use firearms responsibly and ethically for personal protection, as well as developing the proper mindset for using a firearm for personal defense and when facing a life-threatening encounter. Also covered will be mental awareness, how to avoid becoming a victim, strategies for home safety, responding to a violent confrontation in your home and basic defensive shooting tactics. We'll teach you gun ownership laws and more importantly, an in-depth discussion on the judicious use of deadly force including when deadly force is justified against "unarmed" aggressors.

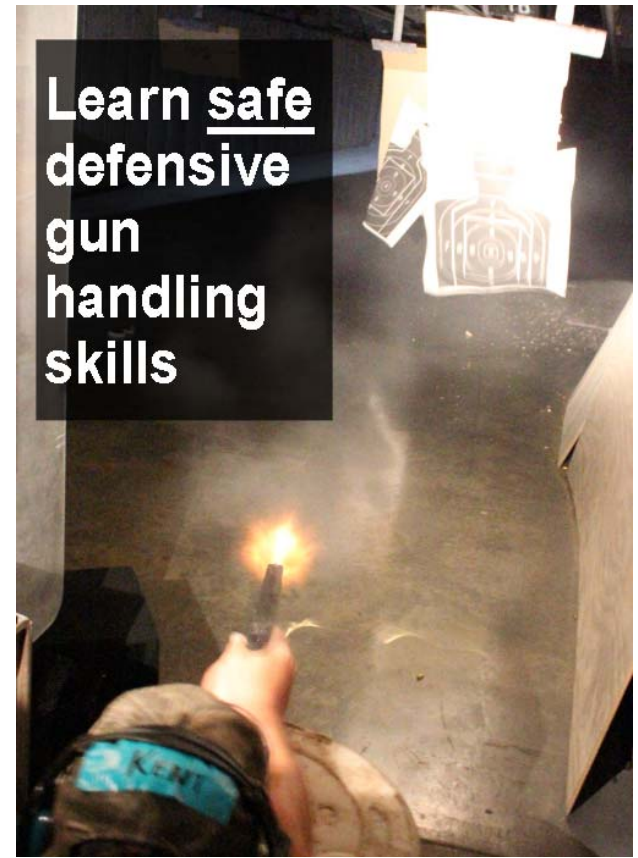

Additional topics and activities included by GSL Defense Training above and beyond the NRA Personal Protection in the Home Course: We will discuss interactions with potential assailants, the moral and ethical decision-making involved with deadly force, malfunction clearing drills and weapon retention strategies. Also, post-shooting interventions with witnesses, responding & investigating officers, the media and others will be covered and *much* more.

Students will spend several hours on the range with live-fire both days. **Students will fire approximately 250 rounds.**

*A Firearms Owners ID Card is recommended, but NOT REQUIRED. **Novice shooters are welcome!***

This course not only satisfies the training requirement for IL, FL, AZ and other state carry licenses, but will also serve as a strong foundation for future development of your personal shooting and self-defense skills.
